7 Night Southern Caribbean February 1, 2009

In cooperation with Norfolk Botanical Garden, we present "The Gardens of the Caribbean". Our Hostess will be **Dr. Bonnie Appleton**, internationally known Professor of Horticulture and Virginia Cooperative Extension Specialist for Virginia Tech. Based at the Virginia Beach Hampton Agricultural Research and Extension Center, she coordinates the only off-campus MS in Science degree program in Horticulture in the United States. She provides training and assistance for the nursery, landscape management, and urban tree care industries.

The flowers will be in peak blooming season!

Day	Port	Arrive	Depart
February 1	San Juan		11:00 PM
February 2	Cruising at Sea		
February 3	Barbados	7:00 AM	6:00 PM
February 4	St. Lucia	7:00 AM	5:00 PM

February 6	Tortola	7:00 AM	5:00 PM
February 7	St. Thomas	7:00 AM	6:00 PM
February 8	San Juan	6:00 AM	

Exclusive Private Botanical Garden Tours

Mamiku Gardens on St. Lucia—Located on the grounds of an old French Plantation with a colorful history. The gardens reflect the natural beauty of St. Lucia.

Andromeda Botanic Gardens on Barbados—Located on a cliff overlooking the town of Bathsheba on the rugged east coast, limestone boulders make for a natural rock-garden setting.

You will have the opportunity to see thousands of orchids, hundreds of hibiscus, and many varieties of ferns, begonias, palms, and other species that grow here in splendid profusion. Presented by local authorities.
